The financial report was read for 1973 by Donald Norseth and was
approved. It was reported that there was \$8.86 left in budget.
It was agreed in order to get enough money for 1974 the price
assessed per acre would have to be raised. It was agreed that
Donald Norseth would figure out the cost per acre to meet \$330.00
needed for the 1974 budget.

There was also a discussion on the Provo River District which had
sent a letter requesting 5% of the budget. The committee did not
feel they would submit to this until more could be found out as to
what the Provo River District was doing.

Commissioner's Report

The Commissioner's Report was given by Ray Sadlier which he
reported that 1973 had been a good year and did not have too
much regulating of water. It was also reported that someone
had shut the gate on Island Lake, and when he went up in the fall,
the lake was half full of water. There was a discussion on how
to lock the gate to keep this from happening another year. It

help watch the gate. The Baldie Spring Ditch was also brought
up. It was reported that the ditch did not have a headgate.
